

2024 SPONSORSHIP PACKAGE

Who We Are

Code[Coogs] is a leading student organization for computer science enthusiasts at the University of Houston. We offer our members the opportunity to collaborate on technical team projects, to improve their professional skills, to compete in programming competitions, and to enjoy engaging events.

Code[Coogs] offers an environment where you can meet like-minded individuals and explore the exciting realms of technology, whether you're a seasoned tech enthusiast or just curious about the world of computer science!

Our Mission Statement

Code[Coogs] emphasizes the importance of learning, teamwork, and problem-solving, ensuring our members are well-rounded and adaptable in the ever-evolving tech landscape. As a community, we celebrate each member's achievements and inspire one another to reach new heights in both academia and the professional world. We are more than just a coding club; we are a thriving ecosystem of innovators, thinkers, and future tech leaders, united in our passion and purpose.

What We Offer

■ TECHNICAL TEAM PROJECTS

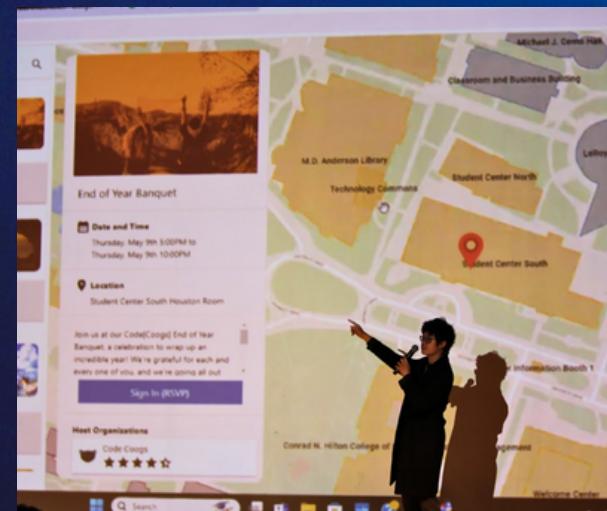

Code[Coogs] embraces collaboration by offering members the opportunity to create projects as a team of around 10 students. Projects use industry standard practices, frameworks, and APIs. It's a journey that nurtures software development skills and the ability to collaborate to bring their collective visions to life.

NOTABLE TEAM PROJECTS

UH EVENTS (SP 2024)

UH Events is an app for students to learn about upcoming events and find event locations and information in an intuitive way.

Creators: Henry Nguyen, Jackson Nace

LASSO (SP 2024)

Lasso is an app that matches people who have interest in learning each others languages and provides video calling and chat functionality and the ability to add friends.

Creators: Tony Flores, Dylan Miller

COMMUNITY EVENTS

Code[Coogs] actively seeks to develop community engagement through cross-disciplinary collaboration with other student orgs to make our members more well rounded. Previous endeavors include intra-organization socials, environmentally-focused initiatives like beach clean-ups, and structured networking events such as game nights.

WORKSHOPS

Code[Coogs] provides members the opportunity to learn concepts beyond just the typical computer science curriculum. By hosting workshops and seminars, we have been able to teach an array of different subjects, including popular web frameworks, useful C++ libraries, building scalable enterprise applications, and more!

CODING COMPETITIONS

Our bi-weekly coding competitions serve as practice for members to train for the prestigious ICPC (International Collegiate Programming Competition). We award top ranking contestants fun prizes. Code[Coogs] also hosts competitions for UIL computer science high schoolers in the Houston area.

End of Year Banquet

To celebrate each year of [Code\[Coogs\]](#), members and sponsor companies gather for a lavish banquet. Members present a live demo of their team projects to a panel of judges comprised of company representatives and UH alumni. This is a major networking opportunity, paving the way for future partnerships.

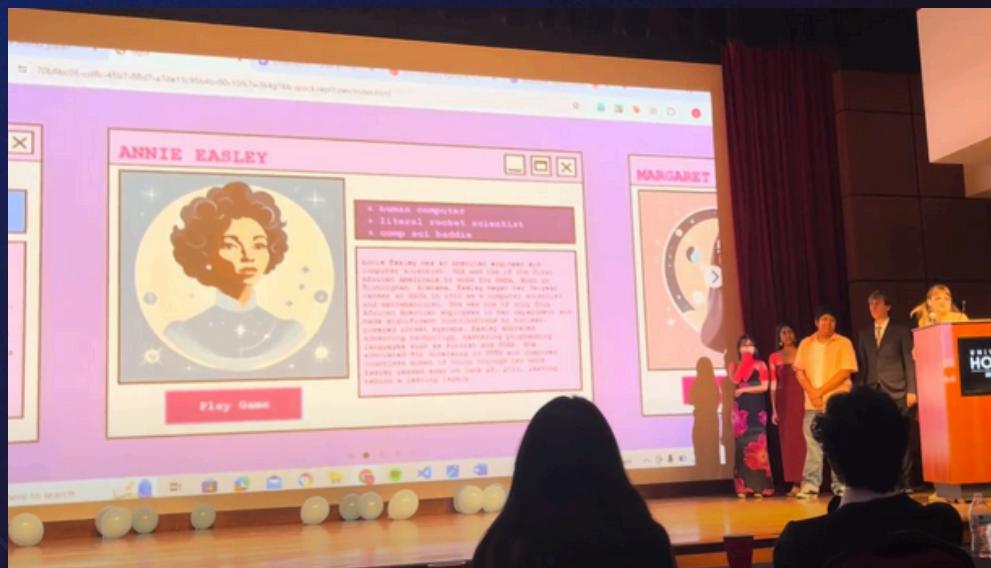

see you there!

Why Sponsor Code[Coogs]?

With over 110+ active members, [Code\[Coogs\]](#) has fostered a thriving community comprised of the University of Houston's brightest minds. A partnership with us is a great way for your company to not only have the opportunity to meet with talented, passionate, diverse, technology minded students at UH, but to also be able to have them develop experience in skills your organization values! Sponsor companies have the option to assign technical projects to our members, which would give students training and experience in tools, languages, and frameworks that are commonly used to develop software that is reflective of your business's needs. **As a sponsor, you will receive the selected benefits described on the next page:**
